

A key framing component meeting your construction needs

KRB GLULAM

Industrial Grade Beams with Stellar Appearance

BEAMS & HEADERS

FEATURES & BENEFITS

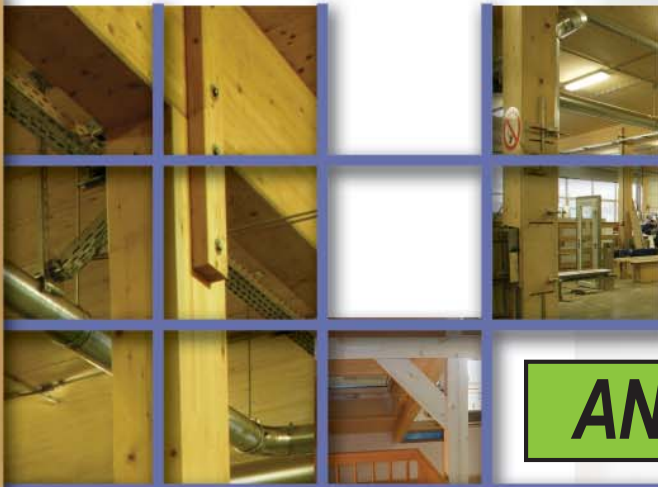

- All Norway Spruce Laminates
- Knots are small and tight
- Planed and eased edge sides
- Finished beam stains very well
- Easily installed (No TOP or BOTTOM)
- No camber, warp or twist — always straight and true
- 3-1/2" & 5-1/2" widths match lumber sizes
- 3-1/8", 5-1/8" and 7" widths match glulam sizes
- Depths match joist and I-joist compatible sizes
- Lengths up to 51'
- Optimized strength by Machine Stress Rating (MSR)
- Over 20% lighter than Southern Yellow Pine Glulam
- Inherently fire resistant
- Each beam is individually shrink-wrapped
- All at an industrial price

WINDOW & DOOR HEADERS

KRB Glulam is a natural choice:

KRB Glulam combines the best of wood's natural characteristics and with engineering to create a versatile product that is easy to use and install.

AN EXCELLENT VALUE

COLUMNS

FEATURES & BENEFITS

- Great finished column — at an industrial grade price
- Available in convenient lengths
- Each column is individually shrink-wrapped
- Several ports of entry —serving East, Southeast and Gulf Coast customers
- Optimized strength using Norway Spruce Machine Stress Rated (MSR) laminates
- Over 20% lighter than Southern Yellow Pine Glulam

Lightweight, transportation friendly:

Lightweight framing members are a significant advantage

- Remodeling and renovation projects
 - Easy to carry and install where access is limited
 - No need for heavy equipment
 - Transportation to the job site is easy
 - Less weight to haul, more cost effective
 - Significant benefit when used in wall panels

Service minded:

- A comprehensive distribution network is in place
- Design software makes product selection easy
- Call us and we'll provide personal customer service to meet your every need
