

MASTER PLANK®

When it comes to
jobsite safety, your workers
deserve the best...

MASTER PLANK — LVL SCAFFOLD BOARDS

...the natural choice for safety!

* * * * *

—Proof-tested—

—Meets OSHA & ANSI Standards—

—Stamped as “Scaffold Plank”—

—Meets Military Specifications—

—Predictable Strength—

—Lightest in Weight—

—Variety of Sizes & Lengths—

—Readily Available—

SCAFFOLD PLANK

LAMINATED VENEER LUMBER

Why are **MASTER PLANK**® laminated scaffold boards the plank of choice?

MASTER PLANK is an engineered wood product designed specifically for use as a scaffold board. The unique process by which it is manufactured disperses the inherent defects found in solid-sawn lumber. Natural characteristics such as knots and wane are rearranged to maximize strength and minimize warping and splits.

Standard Sizes			
Thickness	Width	Length	Weight (plf)
1 1/2"	9 1/4"	8-24'	3.2
	11 3/4"	8-24'	3.9
1 3/4"	9 1/2"	8-24'	3.6
	11 3/4"	8-24'	4.5

Note: Other thicknesses, widths and lengths are available on a custom order basis.

MASTER PLANK is homogeneous and has superior strength properties.

MASTER PLANK is proof-tested to ensure compliance to the OSHA & ANSI A10.8-2001 Standards and is stamped accordingly.

MASTER PLANK is manufactured from spruce veneers, making it the lightest weight laminated wood scaffold plank on the market.

MASTER PLANK is remarkably durable due to its use of critically selected spruce veneers and water proof exterior adhesive.

MASTER PLANK is manufactured under the ISO 9001 Quality Certification System and is inspected under the guidance of an independent nationally recognized inspection agency.

MASTER PLANK is manufactured from forests managed and certified according to the ISO 14001 environmental standard and the ISO 9002 quality standard.

MASTER PLANK SCAFFOLD BOARD SPAN TABLES (USA)

One Span (Simple) L/60				
Load Condition	1 1/2 x 9 1/4	1 1/2 x 11 3/4	1 3/4 x 9 1/2	1 3/4 x 11 3/4
50 PSF	10'-6"	10'-6"	12'-0"	12'-0"
75 PSF	9'-0"	9'-0"	10'-6"	10'-6"
One Man	10'-6"	11'-6"	13'-0"	14'-0"
Two Man	8'-6"	9'-0"	10'-0"	11'-0"
Three Man	6'-0"	7'-0"	8'-0"	9'-0"

Two Span (Multiple) L/60				
Load Condition	1 1/2 x 9 1/4	1 1/2 x 11 3/4	1 3/4 x 9 1/2	1 3/4 x 11 3/4
50 PSF	11'-0"	11'-0"	13'-6"	13'-6"
75 PSF	9'-6"	9'-6"	11'-6"	11'-6"
One Man	12'-0"	14'-0"	15'-6"	17'-0"
Two Man	8'-6"	9'-6"	11'-0"	12'-6"
Three Man	6'-6"	7'-6"	8'-0"	9'-6"

Note: Above Span Tables are based on a deflection limit of L/60 per OSHA requirements.
